

A NEW ITEM IS READY FOR UPCOMING DJ'S GENERATION!

# d+USB Type-C classB

Length : 0.7m/1.0m/2.0m

## Direct connection between Laptops with type-C and devices

We are Launching brand new USB type-C digital cable for all DJs From "d+ series" in NEO Brand.

Laptops equipped with USB Type-C receptacles, such as the Mac Book Pro, are expanding the DJs and Computer music market share every year. And many advanced DJs has been forced to use Type-A to Type-C conversion adapter when use existing cables.

"d+ USB Type-C class B" relieves users from the stress and provides a smart and high-quality DJ environment.

## The New designed Type-C Connector and the dedicated USB2.0 Cable

So as to comply with the USB 2.0 standard using Type-C plugs, it was impossible to avoid thinning conductors. However, we have designed a new cable that ensures the maximum size for both signal and power lines, and that can maximize performance in any environment.

The flat cable and connector design, which can be seen as the d+ series at first glance, embodies the d+ philosophy of being an icon even if the specifications change.

## Overwhelming Quality Control for Various Environments

Type-C connector is very convenient because there is no distinction between the both sides. Therefore, durability is absolutely imperative in hard using environments. "d+ USB Type-C class B" is produced under the thoroughgoing quality control, and only those that pass rigorous testing are shipped. In addition to tests under actual usage conditions such as insertion / extraction, bending resistance, and load resistance tests, TDR (Time Domain Reflectometry) tests which are characteristic impedance tests, and temperature differences from 20 °C to 105 °C. Not only measurement of shape change and electrical characteristics after 48 hours, but also all environmental tests such as more than 80% humidity environment and UV irradiation tests, only products that meet all criteria will be delivered to you.

## Line up

## Specification

Length	JAN CODE
d+USB Type-C classB/0.7	4582387108921
d+USB Type-C classB/1.0	4582387108938
d+USB Type-C classB/2.0	4582387108945

Conductor	Conductor Size	Insulator	Outer Jacket
Silver Plating OFC	23AWG/30AWG	PP / PE	PVC
Connector Type	Plating	Shielding	Max Speed
Type-C to Type B	24K Gold plating	90% braiding + Aluminium Myler	480Mbps /USB2.0 (HI-SPEED)
