

## ZETTA Series

### 1&4 Channels Power Amplifiers

#### Presentation

The RMM Audio ZETTA Series, is the result of an in-depth study, in order to reach the best compromise between economy and performances, taking advantage of latest improvements in automated mixed surface mount and through-hole electronic assembly.

ZETTA Series are a project based on an up-side-down mono-block approach offering an all-in-one power module that contains the entire amplifier assembly. Simplicity and effectiveness run hand by hand through the entire design to obtain an effectively skilled and workable product.

The last generation QuantuPulse™ switching power supply allows to reach a new level of refined sensing and control of the power flow.

The cost-effective ZETTA Series amplifiers are packed with solid and convincing arguments for the professionals researching quality, reliability and value.

#### Features

- Unmatched audio quality & efficiency Class H design
- 1&4 Channels models from 1000W up to 4000W
- Ultra light weight fly, compact package 25cm deep
- Last generation QuantuPulse™ switch mode power supply
- Power Management System (PMS™) and Clip Limiter (ICL™)
- Up-side-down design to avoid fan-dust accumulation
- Industry standard Neutrik® KLR and Speakon® connectors
- Comprehensive protection set (ICL, PMS, SRP, turn on, Temp, DC...)
- Detented sealed potentiometers
- Dual or bridge mode operation
- Temperature controlled, back to front cooling fan

#### Protections

- PMS™: Power Management System controls the amount of power that the amp delivers under different circumstances.
- SRP™: SOA Sentry Protection effectively limiting the power that the amp could deliver into an incorrect load or to a direct short-circuit
- ICL™: Improved Intelligent Clip-Limiting
- Input signal muting at turn on
- Thermal-overload protection
